LANGLEY CITY

CRIME PREVENTION TASK GROUP

CRIME PREVENTION TIPS FOR BUSINESSES

HOW TO PREVENT
YOUR BUSINESS
FROM BECOMING
A VICTIM
OF CRIME

Tip #1: Take control of the vehicle and pedestrian traffic in your business area

- Keep hedges and trees around your business low.
- Use prickly hedges if possible.
- Keep your front door and windows clear of posters and signs for 2-way visibility.
- Ensure you have good lighting and security cameras installed.
- Keep any outdoor equipment in good condition.
- Remove backs from outdoor benches or consider separating the seats with armrests to keep people from resting there too long.
- Ideally, benches for waiting customers should be in areas of high visibility or inside the building.
